PROFESSIONAL SUMMARY

Profile

Final-year Informatics Engineering student at **Universitas Komputer Indonesia (UNIKOM)** specializing in Web & Mobile Software Engineering and Applied Machine Learning. Experienced in building responsive, production-ready web applications (Next.js, React, Laravel) and cross-platform mobile apps (Flutter, Android). Proven hands-on track record deploying on-device AI models (TensorFlow Lite audio speech recognition), delivering commercial client freelance projects, completing industrial internships, and modernizing civic administrative systems. Committed to clean code, robust software architecture, web accessibility, and intuitive user experiences.

EDUCATION

Academic Background

Universitas Komputer Indonesia (UNIKOM) — Bachelor's Degree

2022 — 2026 (Graduating 2026) · Bandung, Indonesia

Program: Bachelor of Informatics Engineering | **GPA:** 3.45 / 4.00

- **Undergraduate Thesis:** *QREAD — Android-Based Arabic Letter Reading App with Speech Recognition (TensorFlow Lite) and Interactive Canvas Tracing for Children Ages 4–6.*
- **Relevant Coursework:** Software Engineering, Mobile Programming, Modern Web Development, Applied Machine Learning, Data Structures & Algorithms, Relational Databases, Computer Networks.

SMK TI Garuda Nusantara — Vocational Diploma

2018 — 2021 · Cimahi, Indonesia

Major: Software Engineering (Rekayasa Perangkat Lunak - RPL)

- Studied Object-Oriented Programming (Java), relational database design (MySQL), and fundamental web development (HTML, CSS, PHP, JavaScript).

TECHNICAL STACK & TOOLS

Core Competencies

Web & Frontend:	React · Next.js (App Router) · TypeScript · JavaScript (ES6+) · Tailwind CSS · PHP · Laravel · RESTful API · PWA
Mobile Development:	Flutter · Dart · Android Studio · Cross-Platform UI · State Management · Audio Processing
AI & Machine Learning:	TensorFlow Lite (TFLite) · Speech Recognition · On-Device Acoustic ML · Python · LLM Integration
Database & Tools:	MySQL · PostgreSQL · Git & GitHub · Postman · Vercel · Figma · VS Code

WORK & PROFESSIONAL EXPERIENCE

Experience

Web Developer · Ilmis Garden — Freelance

August 2025 — September 2026 · Bandung, Indonesia

E-commerce catalog website for a premier artisan flower atelier (ilmisgarden.com)

- Architected and maintained the e-commerce web platform using **PHP Laravel & Tailwind CSS**, featuring dynamic product filtering, responsive shopping workflows, and order inquiry checkout.
- Optimized web performance via modern asset formats (WebP/SVG), lazy loading, and technical SEO structure to enhance organic discovery on local search engines.
- Conducted scheduled debugging, accessibility assessments, and cross-device testing across smartphones, tablets, and desktop displays.

Web Developer · PT Pusat Gamer Nusantara — Internship

September 2025 — January 2026 · Tangerang, Indonesia

Digital gaming voucher top-up platform and instant transaction portal

- Assisted the engineering team in developing high-converting promotional top-up landing pages with clean, responsive, and reusable components.
- Implemented user interface flows for seamless payment channel selection and rapid voucher checkout.
- Diagnosed layout regressions and resolved cross-browser rendering inconsistencies on mobile viewports.

Mobile Apps Developer · QIVA Project — Internship (PKL)

February 2021 — March 2021 · Cimahi, Indonesia

Civic-tech mobile application for public complaint tracking and village administration

- Contributed to mobile application UI/UX design and development using **Flutter & Dart**.
- Connected client-side reporting forms to REST APIs, including photo evidence attachments and real-time status tracking for village residents.

Administrative & Dapodik Operator · TK Tunas Harapan Konengsari — Staff

Professional Experience · Bandung, Indonesia

- Maintained institutional academic records and ensured timely synchronization with the Ministry of Education's Dapodik database system.

FEATURED ENGINEERING PROJECTS

Selected Technical Work

01. QREAD — Android Arabic Speech Recognition & Tracing

UNDERGRADUATE THESIS · UNIKOM (2026)

Tech Stack: Flutter, Dart, TensorFlow Lite (TFLite), On-Device Acoustic ML, Canvas Touch API, Android SDK

Android learning app designed for early childhood students (ages 4–6) to master Hijaiyah phoneme pronunciation and stroke tracing. Integrates an on-device acoustic model via **TensorFlow Lite** for real-time speech verification without cloud dependency or latency. Features interactive touchscreen tracing with stroke sequence recognition, gamified progression, and auditory feedback.

02. BUNNIES WORLD — Interactive Fan Portal & Community Hub

WEB · BUNNIESWORLD.MY.ID (2026)

Tech Stack: React, Vite, PWA, Tailwind CSS, Web Audio API, Gemini AI Assistant, Responsive Web

Interactive progressive web app portal inspired by Y2K, Glassmorphism, and Dreamcore aesthetics for the NewJeans fandom. Features a custom audio stream player, live fan community message board for real-time engagement, and an AI conversational assistant ("Bunny Assistant") for discography recommendations.

03. HAVENGPT — Local & Privacy-First AI Conversational Client

WEB · HAVENGPT.VERCEL.APP (2026)

Tech Stack: Next.js 15, React, TypeScript, Tailwind CSS, Local Storage, LLM APIs

Privacy-focused AI conversational platform with client-side architecture where chat histories are stored strictly within the user's browser, eliminating remote tracking. Features code syntax highlighting, complete Markdown rendering, and instant client-side performance.

04. ILMIS GARDEN — E-Commerce & Floral Atelier Platform

WEB · ILMISGARDEN.COM (2025—2026)

Tech Stack: PHP, Laravel, MySQL, Tailwind CSS, Responsive Web Design

Commercial web platform and digital portfolio for an artisan florist based in Bandung. Built with dynamic product showcases, category filters, a shopping cart, WhatsApp business inquiry integration, and an SEO structure driving local organic traffic.

05. VILLAGE COMPLAINT APP — Civic Tech Public Reporting App

MOBILE APP · QIVA INTERNSHIP (2021)

Tech Stack: Flutter, Dart, REST API, MySQL, Android Studio

Civic-tech mobile application enabling village residents to submit public infrastructure damage and community service reports with GPS location tagging and transparent progress tracking by administrative officers.

OFFICIAL PROFESSIONAL CERTIFICATIONS

Credentials

Web Developer (Pengembang Web) — BNSP
National Professional Certification Board of Indonesia · Issued Feb 2026

Cisco CCNA: Routing & Switching
Cisco Networking Academy · Issued Oct 2023

LANGUAGES & CORE COMPETENCIES

Skills & Methodology

Indonesian (Native Proficiency)
Formal written and spoken communication, technical documentation

English (Professional Working Proficiency)
Technical literature, codebase documentation, and global collaboration

Development Methodology & Version Control
Agile/Scrum principles, Git flow, code review, issue tracking

UI/UX Design & Web Accessibility
Figma prototyping, semantic HTML, WCAG contrast, mobile-first design
