# BUILDING DIGITAL EXPERIENCES THAT *MATTER*.

Hello, I'm **Andrian Baros** — an Informatics Engineering student and Web & Mobile Developer dedicated to creating meaningful digital products through clean code, solid architectures, and real-world utility.

ENGINEER & DEGREE
Andrian Baros · B.Sc. (2026)

ALMA MATER
Universitas Komputer Indonesia (UNIKOM)

LOCATION & BASED IN
Bandung, West Java, Indonesia

01 / ABOUT ME · STUDENT & DEVELOPER

# TECHNOLOGY, *WITH PURPOSE*.

I enjoy building digital products that combine technological reliability, high functionality, and thoughtful user experiences.

### Education & Specialization

Final-year undergraduate studying **Informatics Engineering** at **Universitas Komputer Indonesia (UNIKOM)** with a **GPA of 3.45 / 4.00**. Supported by a vocational software engineering background (SMK TI Garuda Nusantara) since 2018. Specialized in modern web architectures, cross-platform mobile apps, and applied on-device AI.

### Engineering Philosophy

Technology must serve a clear purpose: solving real-world challenges efficiently without unnecessary cognitive friction. I emphasize clean code, modular architecture, privacy-first data handling, and accessible UI standards.

## CORE COMPETENCIES & TECH STACK

### WEB & FRONTEND 01

React · Next.js (App Router) · TypeScript · JavaScript (ES6+) · Tailwind CSS · PHP · Laravel · HTML5 & CSS3 · RESTful API · PWA

### MOBILE APPS 02

Flutter · Dart · Android Studio · Cross-Platform UI · State Management · Audio Processing API · Canvas Touch Events

### AI & MACHINE LEARNING 03

TensorFlow Lite (TFLite) · Acoustic Speech Recognition · On-Device Audio Classification · Python · LLM API Integration · Prompt Engineering

### DATABASE & DEVOPS TOOLS 04

MySQL · PostgreSQL · Git & GitHub · Postman · Vercel · Figma · VS Code

UNDERGRADUATE THESIS · UNIKOM (2026)

# QREAD — Android Arabic Speech Recognition & Tracing

MOBILE APPLICATION · APPLIED ON-DEVICE MACHINE LEARNING & EDUTECH

**Project Overview:** An Android mobile edutech application engineered for early childhood students (ages 4–6) to learn Hijaiyah reading and writing. Integrates an on-device **TensorFlow Lite** acoustic model for real-time Arabic phoneme verification without cloud dependency, paired with an interactive touchscreen tracing engine with stroke detection.

### 01 · On-Device Speech Recognition

Acoustic classification runs directly on the Android device via TensorFlow Lite, delivering near-zero latency (<100ms) with full privacy.

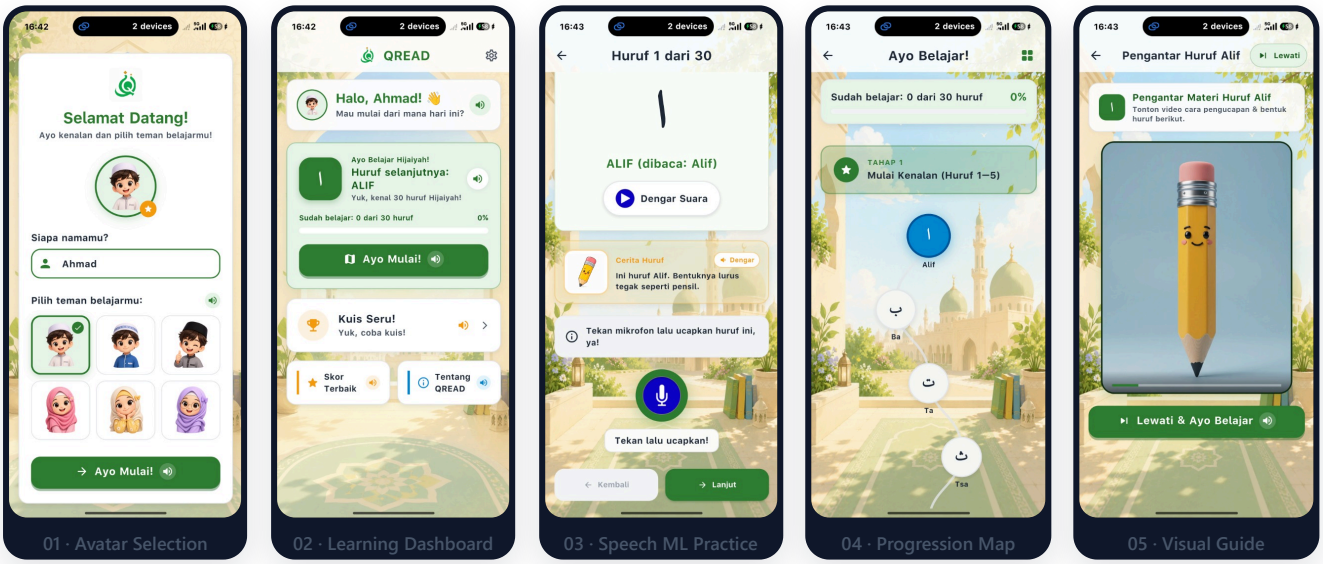

### 02 · Interactive Stroke Tracing

Dynamic touchscreen canvas analyzing stroke coordinates to cultivate fine-motor writing precision with instant auditory feedback.

### 03 · Gamified Curriculum

Engaging learning paths, avatar companions, and interactive quizzes designed to sustain young learners' attention.

## ACTUAL APPLICATION INTERFACE (SCREENSHOT SHOWCASE)

**Core Tech Stack:** Flutter · Dart · TensorFlow Lite · Android SDK · Canvas Touch Events · Audio Classification

LIVE WEBSITE · AB-TOEFL-TRAINING.VERCEL.APP (2026)

# AB TOEFL TRAINING — Full Simulation & Preparation Platform

TOEFL ITP EXAM PLATFORM · 140Q OFFICIAL SIMULATION · EXAMINER PROCTOR MODE · SPLIT-SCREEN READING

**Project Overview:** A comprehensive, self-paced TOEFL ITP preparation and official examination platform. Features complete 140-question exam simulations (Listening, Structure, Reading, Vocabulary), manual Examiner Reader mode for proctor audio control, real-time score analytics (target 550+), and a split-screen academic reading engine.

### 01 · Full 140-Question Simulation (115m)

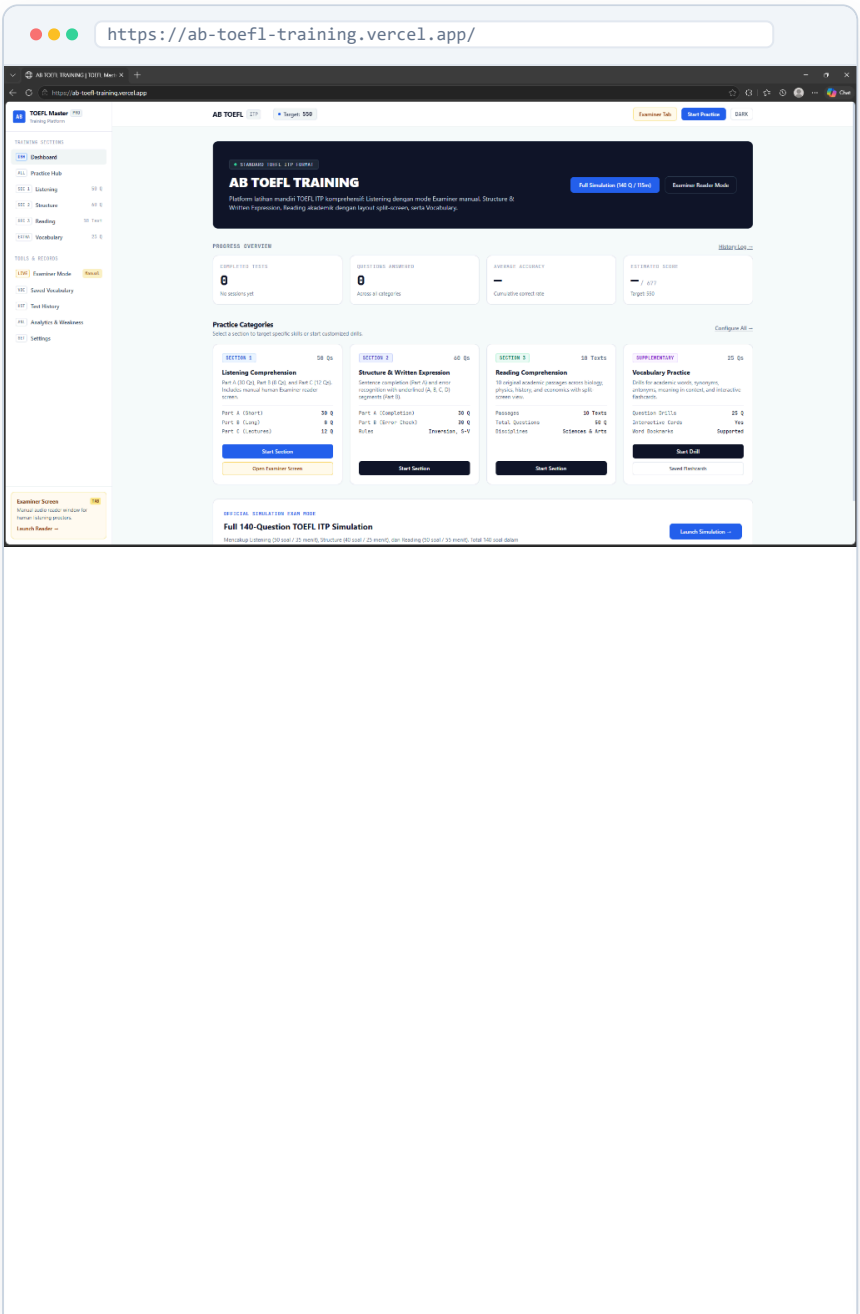

Comprehensive standard coverage: Listening (50 Qs), Structure & Written Expression (40 Qs), and Reading (50 Qs) aligned with official time limits.

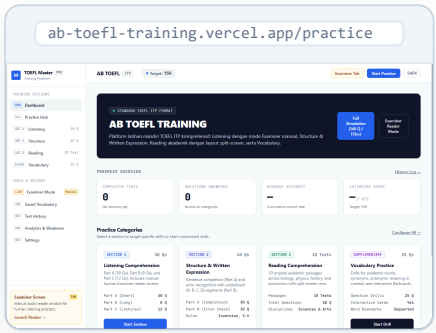

### 02 · Manual Examiner Reader Mode

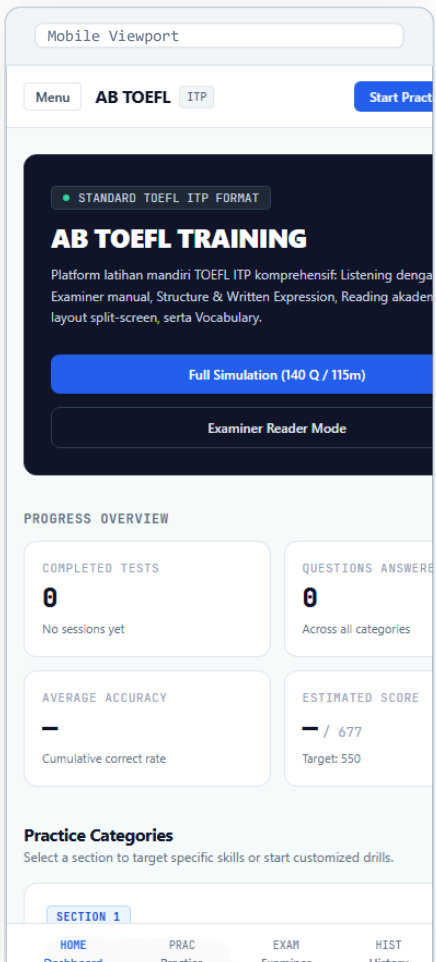

A specialized proctor screen enabling instructors to read conversation scripts or manage listening audio playback manually with on-screen cues.

### 03 · Split-Screen Reading & Vocab

Two-column split view for 10 academic passages (sciences, history, economics) with synced questions, plus vocabulary drills and bookmarkable cards.

LIVE WEBSITE · BUNNIESWORLD.MY.ID (2026)

# BUNNIES WORLD — Interactive Fan Portal & Community Hub

PROGRESSIVE WEB APP · RETRO Y2K AESTHETICS · LIVE FAN WALL · AI ASSISTANT

**Project Overview:** An interactive progressive web app (PWA) capturing Y2K, Glassmorphism, and Dreamcore aesthetics for the NewJeans fandom. Features a custom Web Audio streaming engine, a real-time community Fan Wall, and an AI conversational assistant ("Bunny Assistant").

### 01 · Custom Streaming Audio Engine

Web Audio API player with responsive floating controls, animated waveform visualizer, and persistent playlist playback.

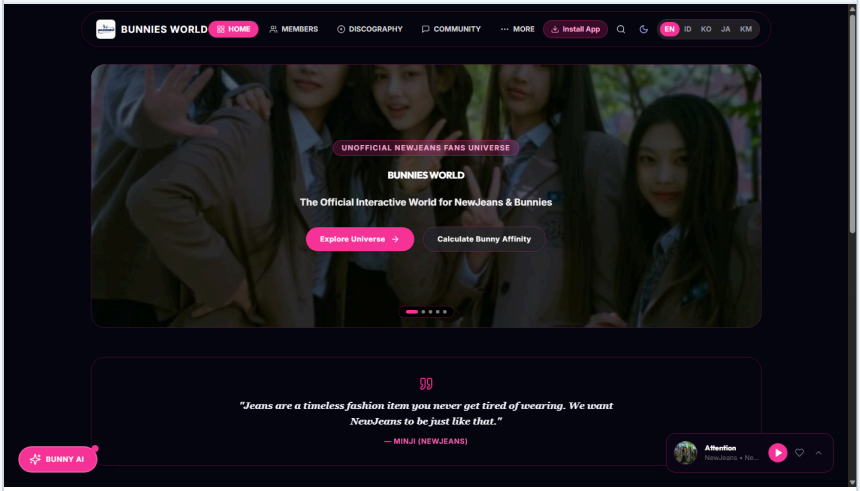

### 02 · Live Fan Community Board

A collaborative fan wall where users can publish real-time messages and share notes within the fandom community.

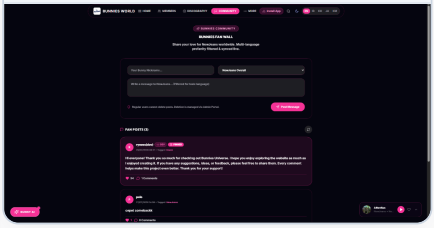

### 03 · Interactive Bunny AI Assistant

Intelligent AI agent providing instant discography recommendations, lyric insights, and community portal navigation.

bunniesworld.my.id/community

Bunny Assistant (AI)

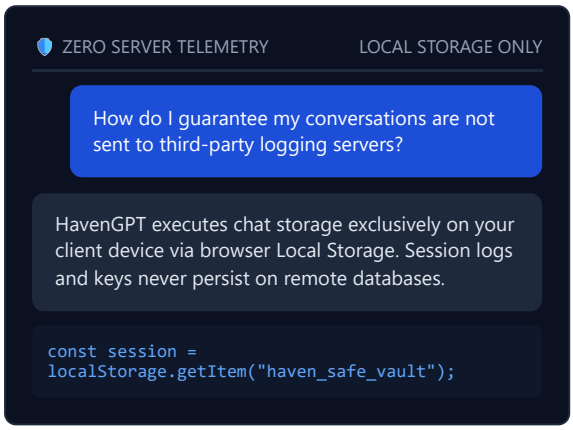

**Tech Stack:** React · Vite · PWA · Tailwind CSS · Web Audio API · Gemini AI · Live Website: bunniesworld.my.id

WEB · LIVE PLATFORM HAVENGPT.VERCEL.APP

## HAVENGPT

**AI Governance & Local Privacy Platform:** A local-first conversational AI client engineered for complete data confidentiality, ensuring chat history is stored strictly in the browser with zero server telemetry.

**Core Highlights:**

- Client-side conversation persistence without tracking
- Real-time code syntax highlighting and Markdown rendering
- Minimalist, distraction-free conversational canvas

Next.js 15 · TypeScript · Tailwind CSS · Local Storage

MOBILE · CIVIC TECH QIVA PROJECT CIMAHI

## VILLAGE COMPLAINT APP

**Public Infrastructure & Civic Reporting Mobile App:** Developed during an internship at QIVA Project Cimahi to enable rural citizens to file complaints and track community infrastructure repairs transparently.

REPORT TICKET #CIVIC-2021-089 · IN PROGRESS

**Street Light Repair & Drainage Maintenance**

Location: Jl. Raya Konengsari KM 2 · Evidence: 2 Photo Attachments · Status: Verified Resident

Workflow: **Submitted** → **Verified** → **Field Team**

**Core Highlights:**

- Structured report filing with photo uploads & GPS geotagging
- Real-time ticket milestone tracking for public transparency
- Administrative dashboard for local government staff

Flutter · Dart · REST API · MySQL · Android

LIVE WEBSITE · ILMISGARDEN.COM (2025—2026)

# ILMIS GARDEN — E-Commerce & Floral Atelier Platform

COMMERCIAL WEB PLATFORM · ARTISAN FLOWER CATALOG · WHATSAPP DIRECT CHECKOUT

**Project Overview:** Full-stack commercial e-commerce platform and digital catalog built for a premier flower atelier in Bandung. Delivers dynamic product filtering, responsive shopping workflows, direct WhatsApp order checkout, and technical SEO structure driving organic local discovery.

### 01 · Dynamic Catalog & Filtering

Categorized artisan arrangements, occasion bouquets, and customized wedding flowers with rapid search filters.

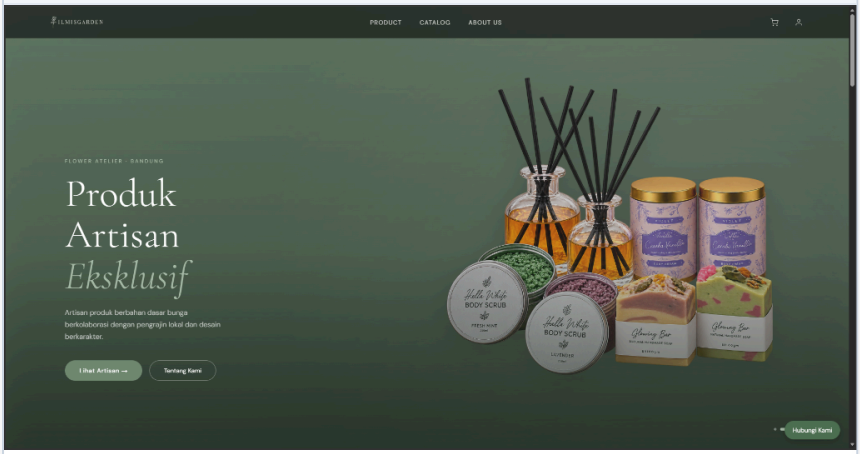

### 02 · Direct WhatsApp Checkout

Seamless checkout pipeline compiling cart items into structured WhatsApp messages for instant boutique handling.

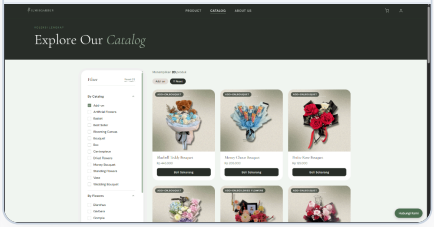

### 03 · Performance & Technical SEO

Next-gen image formatting (WebP/SVG), lazy loading, and schema markup achieving sub-second initial load times.

https://ilmisgarden.com/

ilmisgarden.com/catalog

Mobile Responsive

**Tech Stack:** PHP · Laravel · MySQL · Tailwind CSS · Responsive Web Design · WhatsApp Business API

Live: ilmisgarden.com

07 / PROFESSIONAL JOURNEY

# EXPERIENCE & *EDUCATION*.

## WORK & PROFESSIONAL EXPERIENCE

**AUG 2025 — SEP 2026**

### Web Developer

Ilmis Garden · Freelance

Developed and maintained the full-stack e-commerce catalog for ilmisgarden.com, engineered cart workflows, optimized performance (WebP), and managed SEO.

**SEP 2025 — JAN 2026**

### Web Developer

PT Pusat Gamer Nusantara · Internship

Built promotional landing pages for digital game top-ups, implemented responsive UI components for transaction checkout, and resolved mobile browser regressions.

**FEB 2021 — MAR 2021**

### Mobile Apps Developer

QIVA Project Cimahi · Internship (PKL)

Designed and built mobile UI for a civic complaint application in Flutter & Dart, integrated issue reporting forms with REST APIs, GPS tagging, and photo uploads.

**PROFESSIONAL WORK**

### Administrative Operator

TK Tunas Harapan Konengsari

Managed institutional educational administration, maintained routine synchronization with the national Dapodik database, and digitized school records.

## FORMAL EDUCATION

### B.Sc. Informatics Engineering

GPA 3.45 / 4.00

Universitas Komputer Indonesia (UNIKOM)

Period: 2022 — 2026 (Bandung, Indonesia)
Thesis: QREAD — Android Arabic Speech Recognition via TFLite & Canvas Tracing.

### Software Engineering (RPL)

SMK TI Garuda Nusantara

Period: 2018 — 2021 (Cimahi, Indonesia)
OOP Fundamentals (Java), Relational Database (MySQL), & Web Dev.

## OFFICIAL CREDENTIALS

### Web Developer Certification

BNSP (National Certification Board)

Issued February 2026 · Indonesian National Competency Standard

### Cisco CCNA: Routing & Switching

Cisco Networking Academy

Issued October 2023 · Network Fundamentals & Protocols

HAVE A PROJECT OR OPPORTUNITY IN MIND?

# LET'S MAKE IT *HAPPEN*.

Interested in collaborating on a web or mobile project, full-time engineering opportunity, edutech and applied AI research, or simply want to connect? I am always open to exploring meaningful work.
